

Vision Portable Medical Oxygen Therapy Kit

- Two litre (2LT) 200 Bar lightweight medical oxygen cylinder
- Delivering 430 litres of oxygen
- Vision integral regulator multiflow (0-20 litres per minute)
- Soft PVC hockey bag style carry case containing mask and tubing

Our therapy kits provide the following advantages:

- Lighter than conventional steel cylinders
- Excellent corrosion resistance
- Effortless portability
- Optimum efficiency with minimum physical stress

We also offer a full re-filling and re-testing service.
